

Ramani Kant Jha

Technical Support Engineer | Application Support

✉ kantramani01@gmail.com ☎ (+91) 7840030847 📍 Delhi, India 🌐 <https://linkedin.com/in/ramani-kant-jha>

Summary

Computer Science graduate with hands-on experience supporting enterprise applications, technology-driven business operations, and web-based software. Experienced in application troubleshooting, system and operational issue resolution, customer support, data management, REST APIs, SQL, Python, FastAPI, Flask, MySQL, MongoDB, and Git. Experienced working with Finacle Core Banking Solution and supporting technology-enabled banking processes. Strong analytical and problem-solving skills with a software development background, enabling effective diagnosis and resolution of application and technical issues.

Skills

Technical Support

Application Troubleshooting, Technical Issue Resolution, System Troubleshooting, Application Testing, User Support, Customer Support, Incident Resolution, Technical Documentation

Application & Backend

REST APIs, FastAPI, Flask, Node.js, Express.js, React.js

Programming

Python, JavaScript, TypeScript, SQL, HTML, CSS

Databases

MySQL, MongoDB

Enterprise Applications

Finacle Core Banking Solution, Digital Banking Systems, Customer Data Management

Tools

Git, GitHub, Vercel

Architecture & Concepts

MVC Architecture, REST Architecture, Version Control, CI/CD

Professional Skills

Customer Handling, Communication, Problem Solving, Attention to Detail, Teamwork, Adaptability, Quick Learning

Experience

Bank of Baroda

Karol Bagh, New Delhi

Apprentice

Aug 2025 - Aug 2026

- Worked extensively with **Finacle Core Banking Solution** for account management, transaction processing, customer data, and banking operations.
- Supported technology-enabled banking processes and assisted in resolving routine application and operational issues.
- Coordinated with branch staff to identify system-related issues and support timely resolution.
- Supported account opening, KYC verification, account maintenance, and customer onboarding using Finacle and digital banking tools.
- Managed and verified customer data and documentation while maintaining accuracy, confidentiality, and process compliance.
- Assisted customers with digital banking services and technology-driven processes.
- Developed practical understanding of enterprise applications, application workflows, data management, and operational support.
- Applied analytical and troubleshooting skills to support efficient resolution of technology-related operational issues.

Cloudstok Technologies Pvt. Ltd.

Noida, India

AI/ML Intern

Feb 2025 - July 2025

- Developed and supported AI-powered web applications, including an intelligent website chatbot, image enhancement application, and image generation system.
- Built backend APIs using **FastAPI** and integrated application services with frontend interfaces.
- Worked with Python, OpenCV, PyTorch, and TensorFlow for application development and image-processing tasks.
- Tested application functionality and worked on troubleshooting and resolving technical issues during development.
- Optimized application and model performance to improve response time and user experience.
- Collaborated with team members across development, testing, and deployment activities.
- Used **Git** for version control and followed software development lifecycle practices.
- Applied analytical and problem-solving skills to investigate application issues and implement technical solutions.

TwoWaits Technologies Pvt. Ltd.

Greater Noida, Uttar Pradesh

Web Development Intern

Jul. 2022 - Aug. 2022

- Developed the frontend of a responsive gym website using HTML, CSS, and JavaScript.
- Implemented navigation, contact forms, and interactive website components.
- Collaborated with the design team to implement a user-friendly interface across different devices.
- Performed cross-browser compatibility testing and identified and resolved frontend issues.

Projects

AI Chatbot

Feb 2025 - Mar 2025

- Developed an AI-powered chatbot capable of processing user queries and providing contextual responses.
- Built RESTful APIs using FastAPI and integrated the backend with a React-based frontend.
- Worked across frontend and backend components to support application functionality and communication.
- Troubleshot application issues and improved the overall user interaction experience.

Test Report Analyzer

Apr 2025

- Developed a web-based application for analyzing uploaded reports during an AWS Intelligent Document Processing workshop.
- Implemented OCR and document-processing techniques to extract information from uploaded documents.
- Built a Flask-based application for document upload and analysis.
- Tested application functionality across the document upload and analysis workflow.

Personal Portfolio Website

May 2025

- Designed and developed a responsive personal portfolio website using modern web technologies.
- Implemented interactive UI components and animations using Framer Motion.
- Tested and optimized the website for desktop, tablet, and mobile devices.
- Deployed the application on Vercel.

Heart Disease Prediction Using Machine Learning

Mar 2023 - Jun 2023

- Developed a machine learning application using the Cleveland Heart Disease dataset.
- Performed data preprocessing, feature selection, and hyperparameter tuning using GridSearchCV.

- Evaluated Random Forest, XGBoost, LightGBM, SVM, KNN, and Logistic Regression models.
- Achieved **92.07% accuracy** using Random Forest and an **AUC score of 0.91**.

Publications

Machine Learning Model for Heart Disease Prediction with Consideration of Optimized Hyperparameters
2024

Taylor & Francis

- Published research on an optimized machine learning approach for heart disease prediction.
- Evaluated multiple algorithms with hyperparameter optimization and achieved **92.07% prediction accuracy** using Random Forest.

Education

Pusa Institute Of Technology

Mechanical Engineering

Diploma

New Delhi, Delhi • Jul 2016 - May 2019

Delhi Technical Campus

Computer Science And Engineering

B.tech • 8.89 CGPA

Aug 2019 - July 2023
